

Annex 4

Output and result indicators for the specific action “Innovative and automated solutions and equipment for the facilitation of (pre-)registration in the Entry/Exit System at land and sea borders - EES” BMVI/2026/SA/1.5.3

Please find below a list of relevant indicators for the activities under this specific action drawn from Annex VIII of the BMVI Regulation (EU) 2021/1148.

The outputs and results of this specific action may contribute to the below indicators. Please insert the applicable ones into your BMVI programme by adding the respective values into those of tables 1 and 2 of section 2.1.2 for Specific Objective 1 in SFC.

Specific Objective 1¹

Output indicators

O.1.1 The number of items of equipment purchased for border crossing points:

O.1.1.1 of which the number of automated border control systems/self-service systems/e-gates purchased.

O.1.4 The number of facilities for border crossing points constructed/upgraded

O.1.8 The number of participants supported:

O.1.8.1 of which the number of participants in training activities.

Result indicators

R.1.17 The number of border crossings through automated border control systems and e-gates.

R.1.19 The number of participants who report three months after a training activity that they are using the skills and competences acquired during that training activity.

¹ As set out in point (a) of Article 3(2) of the BMVI Regulation (EU) 2021/1148: “supporting effective European integrated border management at the external borders, implemented by the European Border and Coast Guard as a shared responsibility of the European Border and Coast Guard Agency and the national authorities responsible for border management, to facilitate legitimate border crossings, to prevent and detect illegal immigration and cross-border crime and to effectively manage migratory flows”.
